

ABBNEY HOME FARM WEDDINGS

The farm is the perfect wedding venue for the carbon footprint conscious as we strive to live more lightly on the earth every day. As we have organic certification on our farm and in the shop we only offer an organic in house package, with nothing brought in from outside. We supply everything from the cake to the flowers or hedgerow plants or berries, to the drink and the food which will not suit everybody, but is great for those looking for a completely organic day all in one.

FOOD

We can provide a wide range of dishes from our award winning kitchen. Vegetarian, vegan and meat (always from the farm itself), we specialise in fresh organic local food and welcome catering for special diets. We can talk you through what will be ready in the garden or on the farm at the time of your wedding, including the flowers we grow or what is in the hedgerows.

Extras can include tea/coffee (on the bar), fruit bowls, cheese boards and the wedding cake (can be instead of the pudding).

Relaxed buffet style service (2 courses) with fully laid up tables.

FLOWERS

Flowers are provided by the venue and are seasonal, depending on the time of year. There is always a choice whether its from the flower tunnel, the cutting garden or the woods.

We can provide anything from simple jam jars and room flowers to beautiful contemporary button holes, children's posies, bridesmaid and brides bouquets.
